

Thoughtfully Designed, Unique Beauty

Unique Beauty in Functional Form

Designed by **Marta Mitchell**, a North Carolina based Interior Designer, this clever, custom piece follows form and function to act as a multi-purpose bench that also stuns the aesthetic. The wide variety of materials and range of customization offered by CF Contract & Hospitality are showcased here in this elegant, "two for one" combination.

Durable furniture meant for commercial and hospitality environments, are easily created in handcrafted, steel capabilities at the Boone, North Carolina factory. Whether it be an item designed perfectly for a client's needs in a commercial space, or a custom version of our standard catalog items, we are happy to be part of the process of creating just the right piece.

Charleston Forge 

Intended to save space, this dual purpose, custom piece is engineered with function in mind.
