

“Fast 50” Growth Companies 2026

MM Interior Design Group ranked #14 by the Triad Business Journal.

MM Interior Design Group (MMIDG) has been named one of the Triad’s fastest-growing companies, earning the #14 spot on the Triad Business Journal’s prestigious Fast 50 list for 2026. The award recognizes privately held businesses with exceptional revenue growth, innovation, and leadership across the greater Triad region.

Marta Mitchell (President/Partner) Interviewed:

How has your company grown in the past three years? MMIDG has continued to expand our team of experienced interior designers and business administration professionals. Recruiting top-tier design talent remains a core priority as we specialize in high-end custom residential and commercial projects that demand advanced construction management expertise. Notably, six of our designers hold NCIDQ certification, the industry's highest credential, and are fully licensed by the N.C. Board of Architecture and Interior Designers. To elevate the client experience, we invest heavily in cutting-edge design technology. Our advanced 3D rendering software allows clients to visualize their completed spaces prior to construction, minimizing costly errors and ensuring general contractors deliver projects on schedule and within budget. Furthermore, we offer immersive 3D virtual reality tours, enabling clients to walk through their future homes or commercial properties. Our physical footprint has also grown to support this momentum. Since 2023, MMIDG has added two new suites to our office space. The newly designed studio features a collaborative creative zone for our design team, and dedicated client meeting rooms. Additionally, we recently acquired an adjacent space to house our extensive resource library, an expanding collection of tiles, fabrics, flooring, wallpaper and architectural exterior materials.

What has driven your success the past three years? Our growth is driven by referrals from satisfied clients, developers, general contractors and architects. We believe that true collaboration is the catalyst for extraordinary design.

How is hiring going now versus a year ago? As a premier high-end custom interior design firm, MMIDG consistently attracts top-tier talent. This reputation for excellence, further validated by our Triad Business Journal "Best Places to Work" recognition, drives our successful recruitment of industry-leading designers.

What aspect of your business keeps you up at night? While the global market remains volatile, MMIDG continues to take a proactive approach by scaling our service offerings and actively investing in top talent and technologies.

What aspect inspires you to keep charging ahead? With 37 years of industry experience, we specialize in delivering significant, high-impact signature projects. Our team thrives on the skill and hard work required to bring complex residential and commercial visions to life, always keeping client satisfaction at the center of what we do. This dedication has earned MMIDG 12 prestigious "Excellence in Design" awards from the American Society of Interior Designers.

What's the best question a job candidate has ever asked you? And did you hire that person? We first encountered one of our standout team members when she took the initiative to visit our office without a scheduled appointment. Professionally attired and equipped with a compelling portfolio, she clearly articulated her passion for our design philosophy and her eagerness to contribute to our mission. Compelled by her enthusiasm and talent, we interviewed her on the spot and subsequently welcomed her to the team.
